Learning from the General Past

Sebastian Hedevang, Jens Hüls Funder, Morten Knudsen, Andreas Rønholt Schmidt and Henriette Heise originally met at the Academy in Copenhagen. When the student / teacher relationship concluded they continued to have informal exchanges about art, art education and being an artist in this dramatically changing world.

At some point the discussions led to the production of works: Hejseværk in 2018 and Svejseværk in 2019.

For La Cucina the five artist have collaborated on a series of new works picking up on their continued discussions.
